

What does denaturing mean?

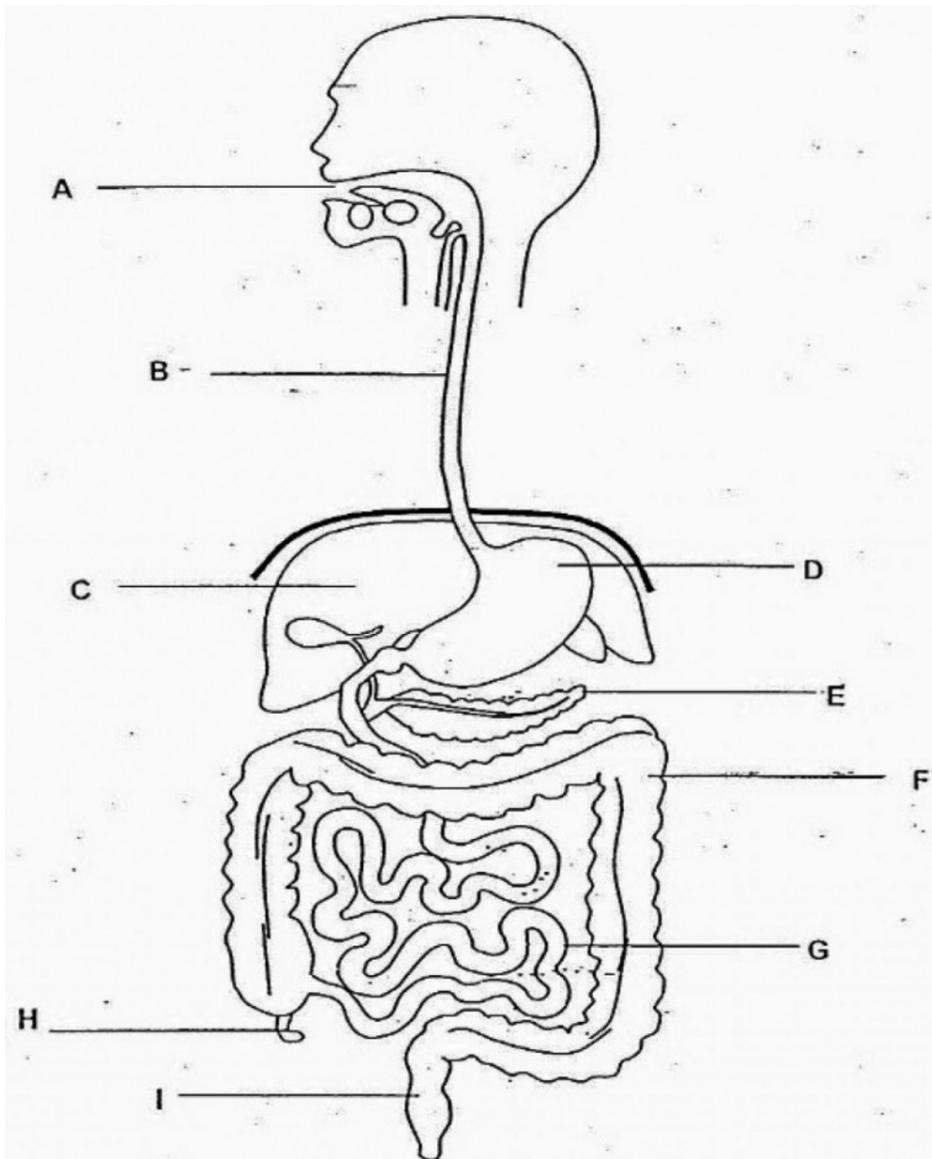

Enzyme	Location in body:	Optimum pH	Optimum temperature
Amylase			
Lipase			
Protease:			

B3 Digestion Revision

What is the function of the digestive system?

Label the organs or the digestive system

Draw a graph to show the activity of amylase against temperature:

Food group	Carbohydrate (starch)	Protein	Fats/Lipids
Monomer			
Enzyme			
Uses in body			

What are the chemical tests for these food groups?

- Protein
- (Reducing sugar) Glucose
- Starch
- Fat

Define the following key terms:

Tissue—

Organ—

Organ system—
